Do you offer virtual showings?

Property Tours · https://skalerealestate.com/docs/do-you-offer-virtual-showings/

Yes - we do!

In fact, we recognize how valuable your time is and because of that, we feel it is most important to meet with us virtually before ever setting foot on site. During this virtual get together, we will be able to review our previously created digital content and answer any high-level leasing questions you may have.

Our intention behind a virtual tour is that our team can familiarize you with the building, available layouts and cover any administrative items in advance so that you can better spend your time on-site viewing the unit and worry less about questions!

We offer the following digital library to allow prospects review layouts, units, and building amenities prior to visiting our property.

- -3D Matterport Tours
- -Digital Floorplans
- -Unit Video Walkthroughs
- -Professional Photos

If you have questions about the touring process or are having issues locating our digital material, please do not hesitate to reach out to info@skalerealestate.com
